BOSCH
Invented for life

Bosch Dishwashers: Leaders in Safety

AquaStop® Leak Protection

- AquaStop® system contains leaks through a precisely engineered tub and sensor system that works with our solid molded base
- If a leak has occurred, it shuts down operation and automatically pumps out the water to avoid contact with the floor.
- Now it works 24/7 and can even turn itself on if the unit is switched off

Self-Latching Door

- The door holds at the position you want it to when you open your dishwasher
- The door will automatically shut and latch at less than 20°
- Strong stainless steel hinges provide sturdiness for the door, to stand up to a lifetime of wear and tear

Did you know....Bosch is rated #1 in Reliability!

No Other Dishwasher Brand has Fewer Repairs, According to a Leading Consumer Publication

How do we do it?

- Every single dishwasher we manufacture is thoroughly tested before it leaves the factory

Why do we do it?

- By having such strict quality control standards, it prevents problems in the future and increases customer satisfaction

Testing Process at the Factory

- 100% are visually inspected
- 100% are tested for electrical safety and function with water
- 2% to 5% are audited using a rigorous customer simulation process
