

This Month: New Water Softener Dishwasher

The easy way to deal with hard water.

Hard water is tough on dishes—and your dishwasher. If you live in a hard water area, glasses may come out looking cloudy or spotted, and your dishes may not get as clean as they should. That's why select 300 Series and ADA dishwashers offer a built-in water softener, which removes hard water spots caused by lime deposits and softens the water to appropriate levels for spot-free, shiny dishes.

Very hard
(10+ GPG)

Hard
(7-10.5 GPG)

Moderately hard
(3.5-7 GPG)

Slightly hard
(<3.5 GPG)

Models

300 Series:

SPE53U5_UC

SG_68U5_UC

SP_68U5_UC

Softener Salt:

4.4 lbs. SGZ9092UC

Softener Salt features

1. The salt cleans the softener, reducing hard water deposits and providing a spot-free shine.
2. Leaves your dishwasher cleaner by eliminating residue buildup.

Hard water deposits are especially noticeable on glasses.

Did you know?

An easy test to see if you have hard water is to check your dishes for a while residue after coming out of the dishwasher. If the residue comes off with vinegar, you have hard water.
