

Welcome to the Connected Home.

Bosch introduces a complete collection of connected home appliances. From doing the dishes, to brewing a frothy latte, to keeping an eye on your oven, the Home Connect™ app allows you to remotely monitor and control your Bosch appliances from your smartphone or tablet for greater convenience. To learn more about Bosch appliances with Home Connect and our growing network of partners, visit www.bosch-home.com/us/experience-bosch/home-connect.

Selected partners:

Simply, connected.

Simplify everyday life at home with connected technology and relevant partnerships.

amazon alexa

Intelligent, voice activated control.

Alexa can make cooking more enjoyable. Ask Alexa to heat your oven, adjust the cooking time, or turn off the current cooking program.

Conveniently reorder products.

Once initiated by the consumer, the Home Connect app will re-order your choice of dishwasher tablets each time you are getting low.

amazon dash
Replenishment

works with
nest

Love your home — even when you're away.

If your Nest switches to “away” and your Bosch oven is still running, you are notified and can turn off your appliance remotely.

Do more with the services you love.

IFTTT Applets are new experiences you turn on with a simple switch, and they allow you to customize and better control your world. They work with Bosch appliances and hundreds of other services.

IFTTT

drop

Bring recipes to life.

Bosch ovens, with Home Connect, are integrated with the Drop Recipes platform, offering remote control and monitoring of your oven directly within Drop's many recipes.

Home Connect Platform

- **Global BSH Brand for connected appliances**
