

New Built-In Refrigerators

Benchmark® Series

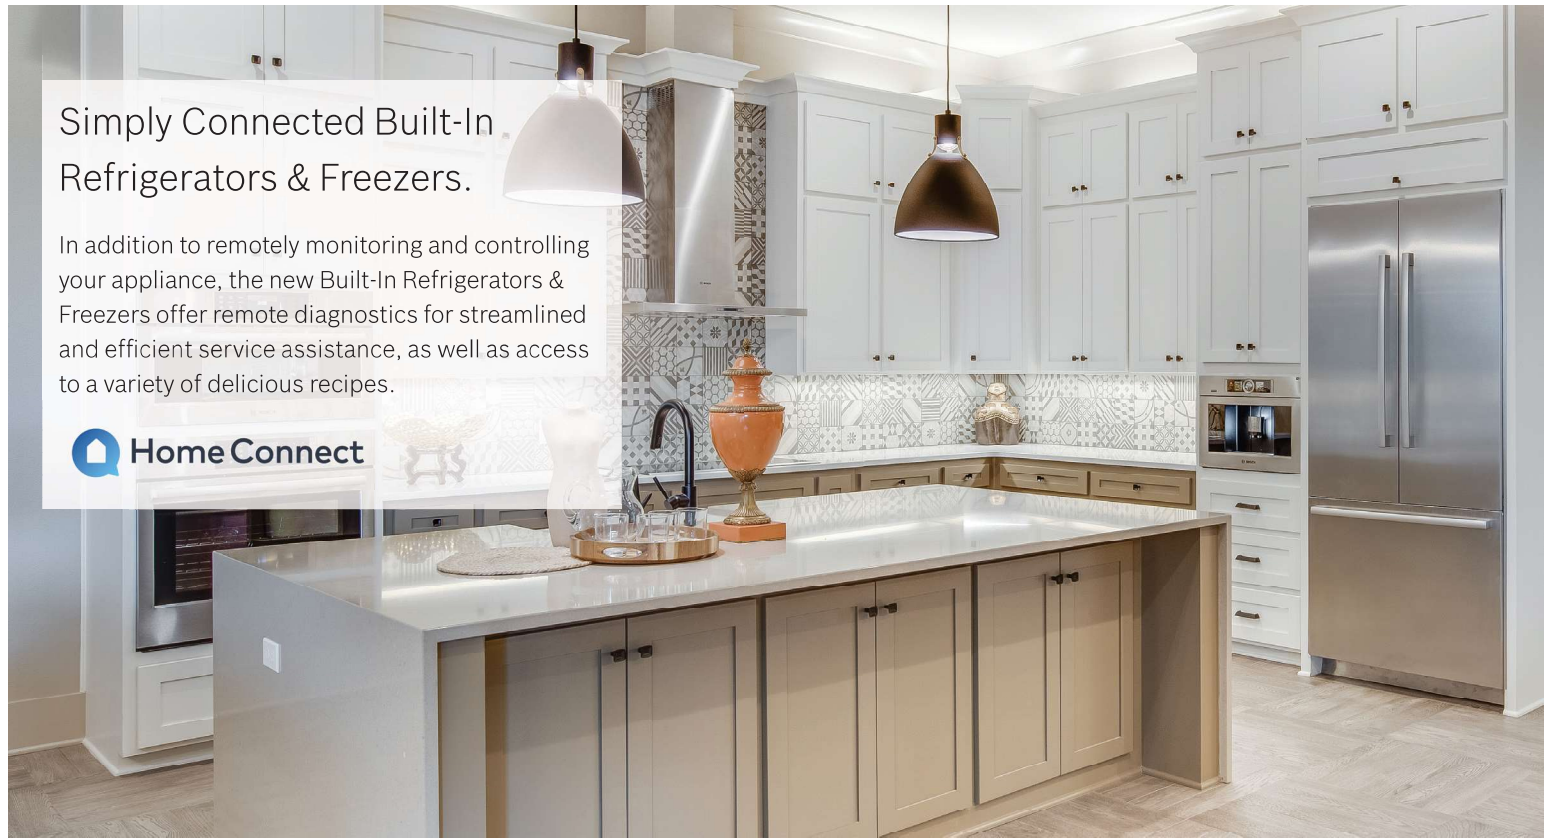

BOSCH

Invented for life

Simply Connected Built-In Refrigerators & Freezers.

In addition to remotely monitoring and controlling your appliance, the new Built-In Refrigerators & Freezers offer remote diagnostics for streamlined and efficient service assistance, as well as access to a variety of delicious recipes.

Freshness technologies to keep your food fresher, longer.

SuperCool

Quickly cool perishables that have recently been purchased by activating SuperCool on your Bosch refrigerator.

SuperFreeze®

When adding new food to the freezer, help it freeze faster and prevent your existing food from defrosting by activating the SuperFreeze® function.

Remote Temperature Change

Remotely adjust the refrigerator and freezer temperature from anywhere* easily using the Home Connect app.

Door Open Alarm

Your Bosch connected refrigerator can notify you on your smartphone or tablet if the refrigerator door is left open.

Remote Diagnostics

Remote diagnostics allows for more efficient service solutions.

Specialty Modes

Specialty modes available include Sabbath mode, Eco mode, and Vacation mode.

Home Connect Partners:

*Connectivity and speed varies based on network and Wi-Fi levels.

Key Features

VitaFresh System

Industry leading VitaFresh system is designed to extend the preservation of your food with temperature and humidity control.

Bright Interior Lighting

Vertical LED lighting bars clearly illuminates refrigerator contents.

Sleek Interior

Interior features sleek streamlined transparent shelving, for optimal food organization.

UltraClarityPro™ Water Filter

Our industry-leading water filter removes an astonishing >99.9% of sediments.

Premium Bin Design

Clear bins allow for easy viewing of contents, and stainless inspired trim enhances the premium aesthetic.

Robust OptiFlex® Hinge

The unique design of the OptiFlex® hinge offers a fully flush installation, and the optional door pin allows for a 90° opening when needed.
