- **Works with existing WiFi routers**
No additional hardware is required
- **Secured and encrypted data**
- **Easy and intuitive Home Connect™ app**
With full demo mode to utilize in store
- **Most complete assortment of connected appliances, offering the widest variety of connected functionality**

Why Add Home Connect™ Appliances?

#1

Added peace of mind with remote control, monitoring & alerts.

#2

Improved customer service with remote diagnostics.

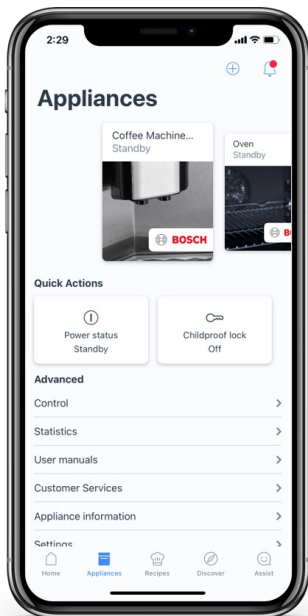

#3

Increased functionality & expanded features through the app and integration with external partners.

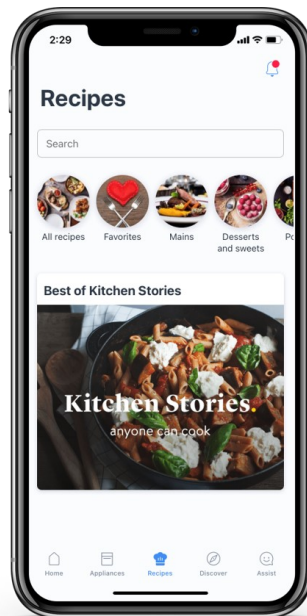

Master your day, in your own way.

Efficiently manage and organize household tasks, right from the convenience of your smartphone.

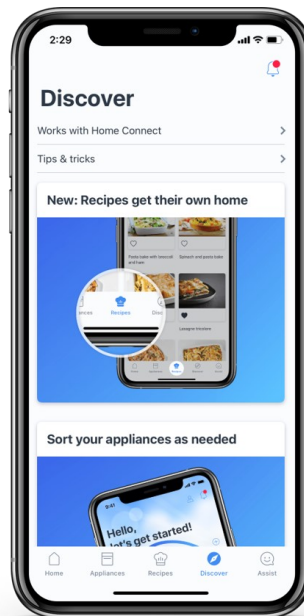

The Power of the App

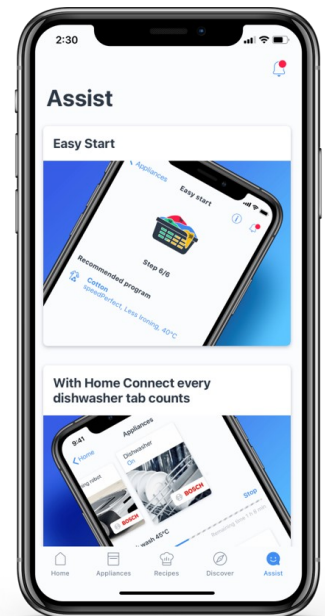

Control products and access additional features

Find recipes and get culinary inspiration

Discover useful tips, videos, & relevant articles

Automate tasks and get program recommendations

Simply, connected.

Simplify everyday life at home with connected technology and relevant partnerships.

Intelligent, voice activated control.

Just say “Hey Google...” for hands-free help around the house. Create smart routines and control appliances using your voice with any Google Assistant-enabled device.

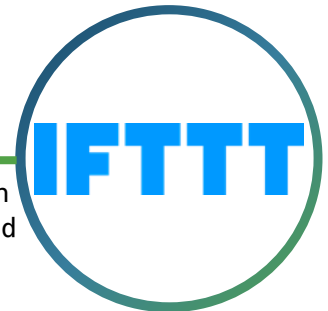

Conveniently reorder products.

If the Alexa dishwasher skill is enabled, Amazon Smart Reorder can re-order your choice of dishwasher tablets each time you are getting low.

Manage your home efficiently.

With the Home Connect™ app for smartwatches, receive notifications when the dishwasher cycle is complete, preheat your oven on-the-go, or brew your favorite coffee—all from your Apple Watch!

Do more with the services you love.

IFTTT Applets are new experiences you turn on with a simple switch, and they allow you to customize and better control your world. They work with Bosch appliances and hundreds of other services.

All recipes are smart recipes now.

With Chefling's UltraConnect™ technology, you can seamlessly integrate recipes—the app scans recipes and converts them into commands to send to your Home Connect™ appliance.
