DID YOU KNOW?

You can control the temperature of your refrigerator with the Home Connect App.

Refreshment Center

The Refreshment Center™ puts your favorite beverages on beautiful display. Entertain friends and family, or keep everyday refreshments on hand and at the ready.

Organized Freezer Drawers

An ingenious three-tier layered freezer drawer system creates extra storage for frozen items, from pizza boxes to frozen waffles. The new organized shelving system features small, medium, and large options; paired with LED lighting, freezer items are clearly displayed, so food doesn't get buried and forgotten.

Filtered Water Dispenser

Beautifully hidden inside, the dual dispensing interior water dispenser lets you enjoy pure, fresh water with the touch of a button or tap of your glass or bottle.

Dual Compressors

Dual compressors and dual evaporators offer efficient and precise cooling and humidity control, while significantly limiting odor transfer between the refrigerator and freezer, creating the optimal freshness environment.

Stainless Steel Back Wall

Stainless Steel lines the back wall with the highest quality stainless steel for a timeless design.
